

行千里 致广大

A Tour in Chongqing, A Gain in Vision

The 2nd International
Symposium on Hydrotherapy
and Climatotherapy Tourism of China

Collection of Academic Papers

Your honorable Mr./Mrs._____

In order to further promote the development of Chongqing hot spring and climate health tourism industry, “the 2nd International Symposium on Hydrotherapy and Climatotherapy Tourism of China” is scheduled on November 28-29 (Thursday-Friday), 2019, in Beibei District, Chongqing.

To play the great role of domestic and foreign expert consultants, enhance the professionalism of the event, and ensure the high quality, the organizer is now collecting research papers or research results related to hot springs and climatotherapy from global hot springs & climate health professionals and institutions. The final collection will be released during the event.

1. Topics: “hot spring therapy” and “climate therapy” for skin beauty, sleep decompression, pain conditioning, chronic disease conditioning; hot springs for health; healthy people and hot springs and climate in the digital era, etc.

2. Collection Object: Experts and scholars from enterprises, research institutes, universities and other institutions related to climate health care.

3. Instructions for Authors

3.1 Requirement: Submit papers related to the above topics as the first author. The paper shall include title, abstract, contents, main body and references. The content of the manuscript must be legal, with innovative ideas, sufficient arguments, conclusions, and clear writing & wording. Papers that have been published or not yet publicly available are acceptable, but contributors need to ensure that the submitted papers do not involve in any academic copyright disputes.

3.2 Review: The review panel will appraise the submitted papers and select them for final collection. If the original text is not in Chinese, the text will be translated into Chinese.

3.3 Inclusion: The papers are only for this event and do not involve any copyright issue. If the organizer needs the paper for other purposes, we will contact the copyright owner in advance to perform the relevant procedures and pay the fee.

3.4 Submission: Besides the paper, please also provide the author's personal resume (Chinese or English) and the author's HD color half-length photo (jpg format).

3.5 Payment: The authors of collected papers will be paid 200 euros/paper, and the organizer will contact the author directly.

4. Contact

E-mail: zx@hakonespring.com.

Subject of the Email: Author's Name & Nationality & Topic.

Submission Deadline: October 20, 2019.

Review & Translation & Print Deadline: November 18, 2019.

About the International Symposium on Hydrotherapy and Climatotherapy Tourism of China

As the first city in China to propose the combination of hot spring wellness and climate health, Chongqing launched the “International Symposium on Hydrotherapy and Climatotherapy Tourism of China” in 2018, which will be held annually and hopes to integrate domestic and foreign expert resources, technical resources and brand resources, etc., to promote the development of hot springs and climate health tourism in Chongqing and even the whole country.

On October 16, 2018, “the First International Symposium on Hydrotherapy and Climatotherapy Tourism of China” was held in Beibei District of Chongqing. The theme was “Gathering in the Global Capital of Hot Springs for the Development of Hot Springs and Climatotherapy Tourism”. More than 350 health experts from China, Italy, Russia, Japan, Hungary, Switzerland and Poland attended the event. 17 domestic and foreign experts were hired as expert consultants for Chongqing Hot Springs and Climatotherapy Tourism, including Umberto Solimene, President of FEMTEC, and Song Yingjie, Chief expert of meteorological service in China Meteorological Administration, etc.
