

## A NEW INITIATIVE BY NATIONAL OFFICE OF THERMALISM

Under the auspices of the Ministry of Health of Tunisia

The National Office of Thermalism and Hydrotherapy organizes, on March 31, 2021 at Golden Tulip Gammarth, a day of official launch of the 1st mobile application in Tunisia dedicated to the sector of hydrotherapy "tunisiawellness".

Put under the auspices of the Minister of Health, Dr. Faouezi Mehdi, this day will see the participation of Mr. Umberto Solimene, President of the World Federation of Hydrotherapy and Climatism and professionals of thalassotherapy, thermalism and spas;

Designed by the ONTH and available on the most important platforms for downloading mobile application and on Android and iOS, this application is a digital tool to promote the hydrotherapy sector among mobile users and highlight the Tunisian know-how in this field, and the quality of services provided by hydrotherapy centers.

The application lists all the thalassotherapy centers, spas, and spas, spread throughout Tunisia, as well as the nearest amenities such as accommodation, transportation and catering.

With more than 300 centers, this application is the best tool for the Tunisian and foreign tourist to make his reservation online through simplified selection criteria.

In addition, the application is equipped with a map allowing the user to geolocate at any time and to search for good deals around him throughout his stay. They can exchange with other users and share their experience directly from the application.
