FEMTEC AS OFFICIAL SPEAKER FOR BALNEOLOGY

<https://wtmforum.com/>

World Traditional Medicine Forum is an Association of full legal power with its registered address and headquarter office at Geldersekaade 67, 1011 EK Amsterdam, The Netherlands. The objectives of the World Traditional Medicine Forum are, among others, to unite traditional medicine professionals from all over the world to promote and improve traditional medicine education and research, to ensure safety and quality of traditional practice and products, set standards for traditional medicine practitioners and to promote traditional medicine regulation. Nowadays, World Traditional Medicine Forum has more than 8,000 members from 80 countries. Members of the World Traditional Medicine Forum are practitioners, educators and researchers of different systems of traditional medicine.

The 3rd World Traditional Medicine Forum, organized by the **World Traditional Medicine Forum**; co-sponsored by the **World Health Organization**, will be held on Saturday and Sunday, May 29-30, 2021 through an online Zoom videoconference. The objectives of this forum are to discuss and exchange the clinical practice, scientific research, standardization, teaching methods, policy, legislation and regulation of traditional medicine, and traditional medicine experience in addressing COVID-19. The forum will be participated by government officials, experts and scholars from traditional medicine and related areas from all over the world. Moreover, the forum will also invite internationally renowned experts and scholars to give special lectures.

The focus of this Forum is to support the implementation of WHO Traditional Medicine Strategy 2014-2023 in particular the strategic objective of promoting universal health coverage by integrating traditional and complementary medicine services into health care service delivery and self-health care. The organizing committee of the forum cordially invites you, Prof. Umberto Solimene, as President of Femteco give a presentation in the situation/field of Hydrotherapy.
