Recent Development of Thermalism Wellness in Chongqing

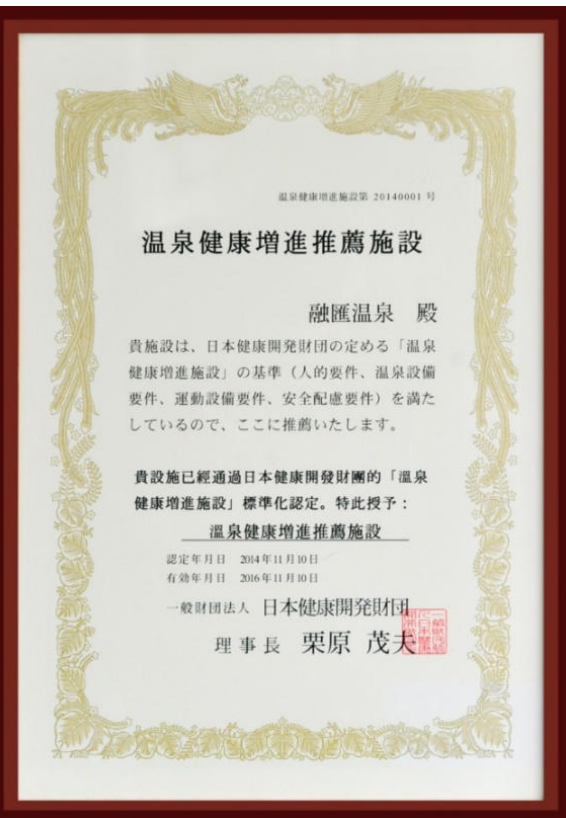

October, 2017

In October, 2012, Chongqing was awarded by FEMTEC (FEDERATION MONDIALE DU THERMALISME ET DU CLIMATISME) as ‘Global Capital of Hot Springs’

2012-2017 Thermalism Wellness in Chongqing

- In November 2014, Ronghui Hot Spring obtained the “Award of Recommended Health Promotion Hot Spring Facility” and has strategic cooperation with Japan Health Development Financial Group;

- In 2012, Chongqing Hakone Group translated *Balneotherapy* written by Japanese expert Otsuka Yoshinori (Huaxia Publishing House).

Effects of thermal springs on human health

With the great support of Chongqing Tourism Administration, CQHSTA started a research on the topic of *How Spa Can Intervene Health* together with Chongqing Medical University.

The subject research report has been concluded, including 2 Chinese articles. The English article is to be published in international journals.

RONGHUI HOT SPRING

A pioneer in the medical application of hot spring

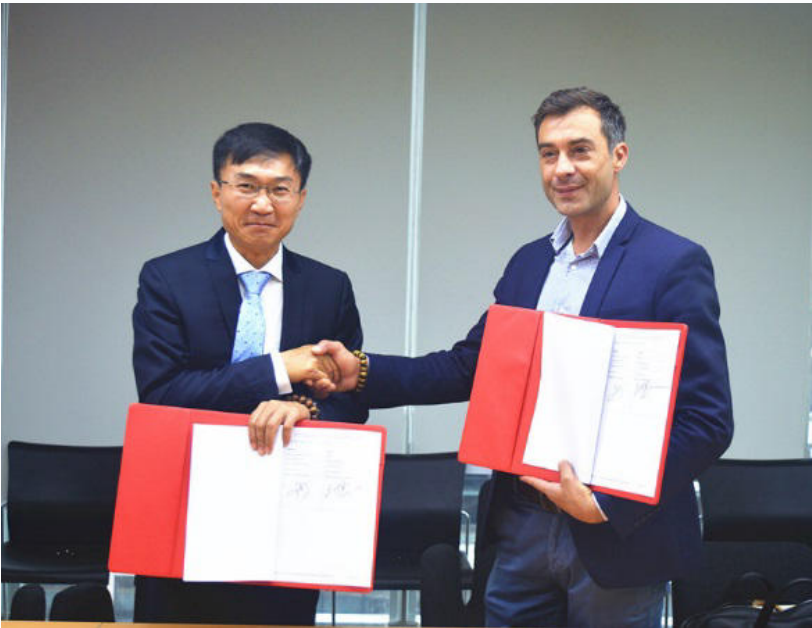

Ronghui and the affiliated hospital of Chongqing Medical University conducted special research on the hot spring medicine, to explore its medical value.

Ronghui adopts the water analysis and certification process of Aquacert International (France) for 10 months, and plans to build an international hot spring wellness tourism center.

- In May 2017, Chongqing Hakone Group signed the contract for international representative agency of Aquacert International Services;
- In August 2017, Aquacert International Services delivered the certificate of representative agency to Chongqing Hakone Group.

On December 24th, 2016, Luneng Yitang Ocean Hot Spring & Resort was opened. The thalassotherapy center was certified as ‘the best design for the first thalassotherapy center in China’ and ‘the first thalassotherapy center in China’ by FEMTEC and CHSTA.

Innovative development of hot spring, new fitness and sports trend

Ronghui introduced French technology and facilities to promote spring water fitness sports.
A group of professional coaches have been trained by French experts.

On Sep 18, 2017,, the first WATSU international physiotherapist certification training was hosted in Chongqing Sheenjoy Hotel. WATSU sessions will be started in both Chongqing and Kunming.

Chongqing Outdoor Hot Spring Museum

Chongqing Outdoor Hot Spring Museum is the first urban outdoor park hot spring museum, supported by the provincial-level government. It is useful to promote hot spring culture and knowledge, and explore the hot spring tourism and wellness market.

The museum, located in Ronghui Hot Spring Town, demonstrates hot spring history, culture, scientific knowledge, technology, famous hot spring spots and towns at home and abroad. It also focuses on hot spring physiotherapy, wellness and TCM. Multi-media and interactive facilities are applied.

May 18th, 2017, China-Hungary Hot Spring Industry Cooperation Forum was held in Chongqing. The host included Chongqing Commerce Commission, Consulate General of Hungary, Hungarian National Trading House, China Hot Spring Tourism Association and Chongqing Tourism Association.

*Chongqing,
a city in the hot spring,
a place of wellness,
a combination of prosperity and peace*

thanks
