Ehtta has 42 members, in 15 countries, Council of Europe, and a cultural route

the

thermal heritage of europe

thermal heritage of europe

is represented by natural, cultural, and intangible resources which are applied to the objectives of promoting health and wellbeing, creating the first touristic destinations. This complex heritage, needs to be recognize as one of the foundation stones of europe, and instrument for an integrated sustainable development.

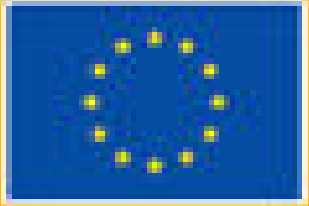

what is it?

Most of the references are estimates, we need qualified data
